Amazon internships

Dear Hiring Manager,

I am writing to express my strong interest in the computer science internship position at Amazon, as advertised on your company's career portal. With a deep passion for Computer science, coupled with a solid academic foundation and hands-on experience, I am confident in my ability to contribute effectively to the dynamic environment at Amazon.

As a student pursuing a degree in computer engineering, I have honed my skills in coding through coursework and practical projects. My academic achievements, including president honor roll, demonstrate my commitment to excellence and my ability to thrive in a challenging academic environment.

In my previous internship at Apple, I had the opportunity to get some experience. This experience equipped me with a strong understanding of coding and the ability to collaborate with diverse teams to achieve common goals. I am especially drawn to Amazon's commitment to innovation, customer-centricity, and its impact on global e-commerce, and I am eager to contribute my skills to such a dynamic organization.

My proficiency in coding and my ability to solve problems make me a strong candidate for this internship position. I am excited about the prospect of contributing to Amazon's continued success and learning from the talented professionals at the company.

I also sent my resume, which provides further details about my academic and professional background. I would welcome the opportunity to discuss how my skills and experiences align with the goals of Amazon in more detail. Thank you for considering my application. I am enthusiastic about the possibility of contributing to Amazon's success.

Sincerely,

A handwritten signature in black ink, appearing to read 'Juliani Amazan'. The signature is stylized with a large loop on the left and a horizontal line extending to the right.
